McGuireWoods

With more than 1,000 lawyers in 21 offices, McGuireWoods is one of the most respected firms in the world, focusing on litigation and corporate law. The practice has a rich history, which dates back to its inception in 1834 and boasts an impressive list of long-term clients.

The firm's global reach means that colleagues must collaborate with peers and the public in 128 countries, using more than 35 different languages. Smart video collaboration systems and processes help to make this even more effective, and enable the ability to share specialist expertise across a broader footprint.

Whitlock is McGuireWoods' long-term video technology partner, having worked with the firm to develop standards and implement collaboration solutions across the U.S. and in Europe. We teamed up with CMS Audio Visual to design and deliver more than 60 collaborative spaces in the firm's new headquarters in Richmond, VA.

McGuireWoods

McGuireWoods implements immersive video collaboration environments at all of its key locations. This ensures that stakeholders in a case can work together and share critical information from multiple sources at once. Whitlock and CMS helped McGuireWoods create this highly collaborative space at its HQ to support legal and business consulting teams.

Large conferencing rooms provide the perfect backdrop for important business discussions, in a secure and formal setting. Whitlock and CMS worked with McGuireWoods to deliver collaborative spaces to match a range of needs and users. When working on its larger profile cases, the teams meet face-to-face and make important go-forward plans.
