OUR PORTFOLIO FOR MICROSOFT SURFACE STUDIO

A New Category: Device Meets Display

 Microsoft Surface Studio

STUDIO-assess

Whitlock experts advise on workflow, design, infrastructure and integration for Surface Studio implementations. Learn how your teams can take full advantage of Surface Studio across the enterprise.

STUDIO-go

Our experts assist with implementations of Surface Studio to any location worldwide. With more collaboration power behind the engine, these devices require more care than your every day desktop. Enjoy the capabilities faster with our expert deployment team.

STUDIO-support

Our certified Microsoft engineers are also specialists on other audio, video and UC technologies across the enterprise. We offer 24/7 global support (onsite, offsite and cloud) for all of our video collaboration services, including Surface Studio implementations.

STUDIO-train

Get the training you need for your IT teams or end users for this transformative device. Whitlock can offer in-person, or online training for Surface Studio and the full Microsoft product suite.
