v-Scheduler All-In-One Scheduling Solution

INTEGRATES WITH CONTACTS, CALENDARS, VENDORS AND CONTROL SYSTEMS!

Automate every aspect of your video and in-person meetings.

Whitlock's v-Scheduler is a cost-effective, time saving, all-in-one scheduling solution that enables organizations to schedule every aspect of a meeting or videoconference from anywhere, by any device, anytime. v-Scheduler seamlessly integrates into a customer's legacy systems while providing a common user interface across the Internet and industry standard desktop and mobile platforms.

Service Overview

Whitlock's v-Scheduler is the simple, yet powerful solution for scheduling, managing and tracking meetings and conferences – both in-person and virtually. Scheduling and planning meetings, events and conferences has become more complex, with more people in more locations and an increasing popularity of multi-facility videoconferencing. With no efficient, seamless scheduling process, organizations are forced to continue utilizing outdated methods often requiring several back-and-forth emails or phone calls to schedule one event.

v-Scheduler is an adaptable, flexible, scalable scheduling solution that is accessible through the Internet, all versions of Outlook 3.0 or higher, Outlook 365 and Lync, Lotus 8.0, Apple IOS (for iPhones and iPads) and Android-enabled devices. v-Scheduler provides organizations with everything needed to arrange a meeting, event or video conference at anytime and from anywhere.

Summary:

- v-Scheduler easily integrates with legacy systems
- Simple user interface provides one-time scheduling for the entire meeting
- One scalable platform for one campus or the whole global enterprise
- Supported by Whitlock's global managed services

Solution Benefits

Time Saver

v-Scheduler is the practical, all-inclusive, virtual meeting scheduling software that enables users to arrange every aspect of a meeting from one easy-to-use dashboard. It just takes a few clicks of the mouse to schedule, manage and track dozens of meetings and conferences. You can arrange immediate, future and recurring conferences. v-Scheduler schedules and manages any number of meetings anywhere in the world, including point-to-point, multi-point, audio calls, room only meetings and web conferences. In addition, v-Scheduler automatically alerts you to any possible problems such as time conflicts, rescheduling needs or meeting cancellations, saving you the time and hassle of having to send out several back-and-forth emails or making several calls, allowing you to focus on more than just scheduling a meeting.

Accessible

v-Scheduler integrates seamlessly into legacy systems and is accessible through the Internet, all versions of Outlook 3.0 or higher, Office 365 and Lync, Lotus 8.0, Apple IOS iPhones and iPads and Android-enabled devices; making scheduling meetings at any time quick and easy. Also, v-Scheduler supports all major videoconference platforms, including: Cisco, Tandberg, Polycom, LifeSize, Vidyo, Room Devices, TelePresence and more, ensuring that no matter the MCU(s) being used the scheduled meeting will take place.

Flexible and S calable

v-Scheduler grows along with your meeting(s) thanks to its modular design. At the same time you book a meeting room and send out meeting invitations, you can also issue work orders for catering, hospitality, A/V, security and other support services. v-Scheduler can also automatically launch your audio and videoconferences enabling you to conduct meetings at a moment's notice from your computer or hand held devices, including point-to-point, multi-point and streaming conferences.

Cost Effective

When you use v-Scheduler to arrange meetings and videoconferences you are more productive. The ability to arrange every aspect of a meeting from one easy-to-use dashboard connected to a singular calendar, not only frees up your time to get more work done, it also saves you money. It allows for a more efficient use of resources and reduces your labor costs associated with scheduling and rescheduling meetings and videoconferences.
